

HOW TO ASSEMBLE

STEP 1. Open the box and check parts

Head

Clamp-Type Mount

Hole-thru Mount

Flexible Metal Stand

AC/DC Adapter

Filters

Sunflower Parts

STEP 2. If necessary, assemble motor by referring it to: "How to Assemble Motor"

STEP 3. Put together air diffuser and head assembly by twist

STEP 4. Put together filter case into head assembly by twist

STEP 5. Choose the mount devices: clamp or hole-thru type. Also other optional mount devices are available.

STEP 6. Mount the flexible metal stand onto mounting device. And fasten butterfly nut. Do not tight too much. It is good idea to leave room for easy rotation. Connect the AC-DC adapter into connector at the bottom.

STEP 7. Attach head assembly into flexible metal stand. Connector looks it lacks a hook, but it is intentionally removed and normal.

PART DESCRIPTIONS & SPECS

I. Vacuum Head

- A. filter housing
- B. filters
(one installed, one extra)
- C. air diffuser
- D. motor housing
- E. lamp housing
- F. head connector

II. Flexible Metal Stand

- G. connector socket
- H. butterfly knob
- I. switch
- J. adapter socket

III. Mount devices

1. clamp type: included
2. hole-type: included

IV. Adapters (CE, UL listed)

1. Input: AC 85-240V
2. Output:
for 10W lamp version: DC 12V 2.0A
for 20W lamp version: DC 12V 4.0A

V. Motor (Input DC 12V, 1.25A Max, CE listed)

VI. Lamp (Input DC 12V, MR-11 halogen lamp)

Optional Mounting Devices

Screw on type \$15

Suction type \$30

Portable Type \$80

You can order these optional mounting devices on our Website: www.bauusa.com or call 973.904.3200.

Warranty

1 year parts at factory warranty

Return Policy

Contact BAUUSA for a Return Authorization within 2 weeks after receiving date with 20% of restocking fee.

How to Operate

Turn switch downward to run motor and lamp, upward to turn on lamp only (or vice versa). To turn off place switch in the middle.

How to change/clean filter

Bend backward the flexible metal stand so that lamp sees the ceiling. Open the filter housing by turning it counterclockwise. Take out the filters and clean with regular vacuum or tapped it outside.

Notice

Please clean filter regularly (daily recommended) and change it regularly (biweekly or monthly depends on your usage). Clean/empty filter works the best. Please do not overburdened motor with full filter. Motor damage due to filter neglect may not be covered by the warranty.
